

An underwater photograph of two swimmers in a pool. The swimmers are wearing dark, form-fitting athletic suits. They are positioned diagonally across the frame, with one swimmer at the top left and the other at the bottom right. The water is a deep, clear blue, and the pool's tiled floor is visible in the background. The Nokia logo is overlaid in the center of the image in a large, white, sans-serif font. The logo consists of the letters 'NOKIA' in a stylized, blocky font. The 'N' is a simple vertical bar on the left and a diagonal bar on the right. The 'O' is a solid circle. The 'K' is a vertical bar on the left and a diagonal bar on the right. The 'I' is a simple vertical bar. The 'A' is a vertical bar on the left and a diagonal bar on the right. The logo is centered horizontally and vertically, overlapping the swimmers and the water.

NOKIA

## Nokia In Greece

Nokia Hellas has a presence of 30 years in Greece giving a vote of confidence to the Greek economy & labor market. The company is among the top 100 corporations in Greece according to headcount and among the top 200 corporations in Greece according to revenues across all industries & public sector. It has a Global Technology Center facility and is the #1 ICT R&D hub in Greece with more than 900 employees of 34 years average age, out of which, 80% University graduates, 50% postgraduates and with strong diverse country and line management team.

The company has a very diverse DNA starting initially as Nokia and then by acquiring Siemens Networks, Motorola Networks, Alcatel Lucent and Bell labs. Nokia is present in all local telecom operators where it has installed most of Nokia portfolio. Currently building presence in governmental and enterprise networks and holds

a strong collaboration with universities and innovation institutions across Greece. Overall, a well-recognized brand in the Greek ICT market, as proved by several awards.

At NOKIA Hellas we lead the implementation of technology edge in software, networks and communications. We develop and export the software that powers 5G for the international market.

Our technology stack includes cloud native architecture, software defined networks, DevOps and end-to-end automation.

- Mobile Apps

# Creating the technology to connect the world in a responsible way

## **We Invest in inclusion and fairness**

To us, inclusion is about creating an environment where all our people feel valued and accepted.

## **We conduct our business with integrity**

Nokia is a trusted and valued partner to many of the largest companies worldwide. We adhere to the highest standards of ethics, integrity and compliance, and have been doing so for over 150 years.

## **We improve people's lives with technology**

Our greatest impact on people and society is through our technology. We connect the unconnected, as well as people and things, to create a smarter, healthier and safer world.

## **We respect our people**

Our Code of Conduct provides the basis for how we all act every day. Health and safety are priority for us, along with the well-being of all our employees. Inclusion and diversity are also a key component of our culture and actions.

## **We protect the environment**

We are committed to a cleaner, more connected world. Our technology can enable a safer, smarter and healthier planet.

Building the future

Stay connected with ....

# NOKIA

Every day we share and publish new stories on these channels about our products and people. Keeping connected via these channels will keep you informed of the latest news and events and will also provide a look into the daily experiences of our global workforce workforce that make Nokia a great place to work.
